

Final Deliverables

Cloud Deployment and Third-Party APIs

Date	16.11.2022
Team Id	PNT2022TMID01145
Project Name	AI Based Discourse for Banking Industry

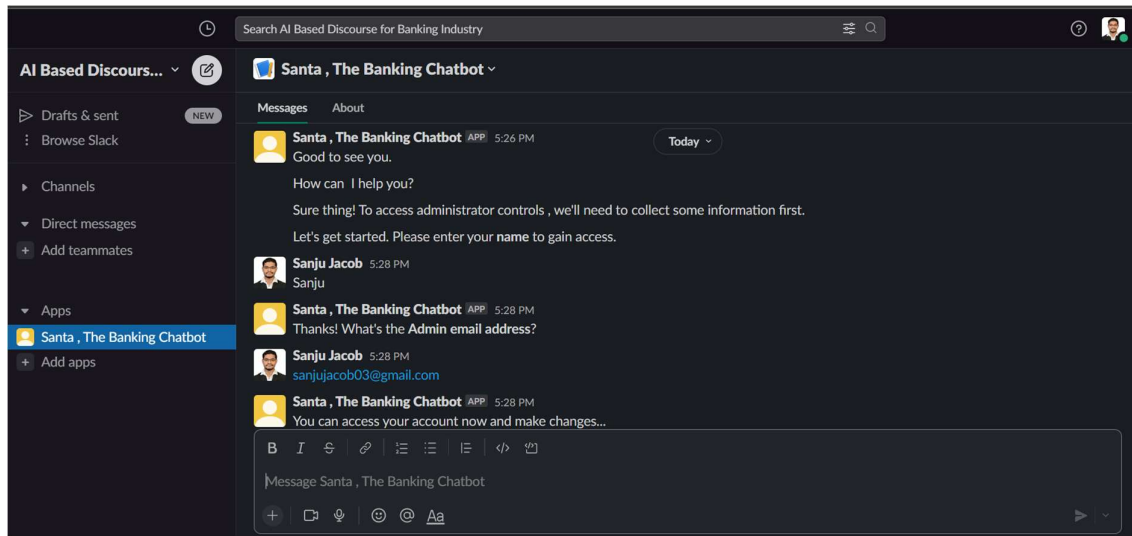

Cloud Deployment:

The screenshot displays the IBM Watson Assistant Lite interface for a 'Banking Chatbot'. The top navigation bar includes 'IBM Watson Assistant Lite', an 'Upgrade' button, and a dropdown menu for 'Banking Chatbot'. The main content area is divided into three sections:

- Task tracker:** A list of tasks with progress bars, all showing 100% completion.
 - Enhance your assistant: 0 steps left, 0 min
 - Test and refine your assistant: 0 steps left, 0 min
 - Deploy your assistant: 0 steps left, 0 min
- Live assistant status:** A central area showing the chatbot's configuration.
 - Channels:** A list of channels (Web chat, Slack, Facebook Messenger) connected to a central chatbot icon.
 - Resolution Methods:** A section showing the current version 'V1' (11/13/2022 06:28PM) with a 'Live' status.
 - Extensions:** A section showing a 'Search' extension powered by IBM Watson D..., with a description 'Extend what your assistant can answer by searching your ...' and a 'Try Plus Plan' link.

Third-Party APIs:
